

NADY ELECTRONIC MOTORCYCLE ACCESSORIES

Nady Cycle-to-Cycle Communicators with Intercom

Nady headsets mount easily on helmets, requiring no drilling or cutting. Each Communicator includes two headsets—one snap-apart driver headset and one MO passenger headset.

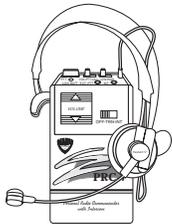

New electronic push button controls. Passenger can transmit with Nady Cycle-to-Cycle models.

The Nady Body Pack is small, rugged and light-weight. It clips to your belt or fits in your pocket.

Nady Communicators are voice-activated and use noise-cancelling microphones for the clearest possible communication.

Cycle-to-Cycle models include:

- "Call" feature
- Remote mounting "Push-to-Talk" button
- Low-battery LED indicator
- Choice of passenger headsets

PRC-7 Cycle-to-Cycle Communicator with Driver-Passenger Intercom. Simplex operation. Now with "Electronic Touch" controls and SUPERVOX™ for the clearest possible communication. Passenger can transmit. (One at a time talks, but any number of communicators on the same frequency can be used together.)

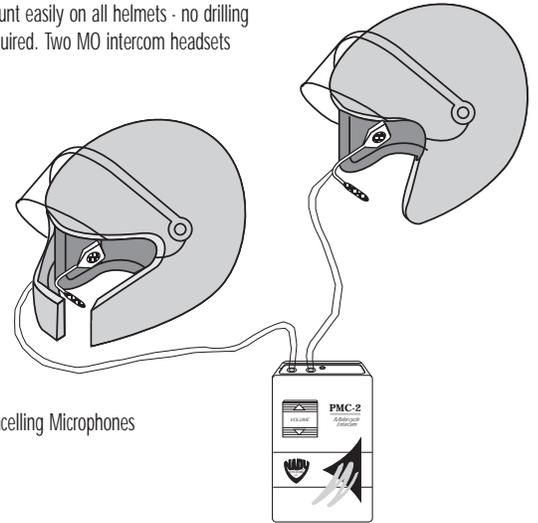

PRC-9 Cycle-to-Cycle Communicator with Intercom. Duplex operation—just like talking on a telephone. Now with SUPERVOX™ noise-attenuating circuitry.

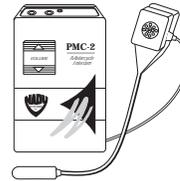

PRC-8 Cycle-to-Cycle Communicator with Driver-Passenger Intercom and FM radio. Simplex operation. Listen to music or news on the road. Radio volume drops automatically when you speak. Now with SUPERVOX™.

Nady Driver-to-Passenger Intercom

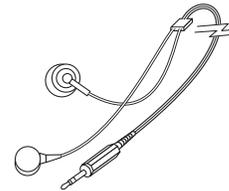

Headsets mount easily on all helmets - no drilling or cutting required. Two MO intercom headsets included.

Noise-Cancelling Microphones

PMC-2 Driver-Passenger Intercom with "Electronic Touch" controls.

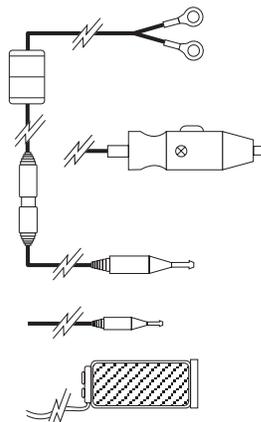

MC Headset mounts inside the mouth-guard of full-face helmets; MO Headset mounts on any helmet (open or closed face.)

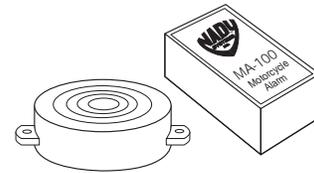

PMC-3 Driver-Passenger Intercom with FM Radio and "Electronic Touch" controls.

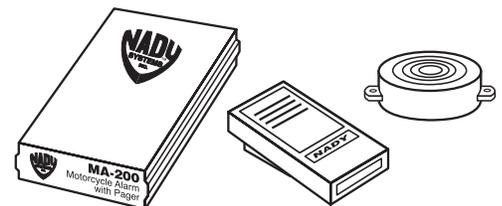

NADY
MOTORCYCLE
COMMUNICATORS

Battery Eliminator Cable
Links any PMC/PRC Motorcycle Intercom/Communicator to the motorcycle battery, providing power to the units. Choice of cigarette lighter or double lug connectors. Quick disconnect provided.
