

NADY EASYTALK™ PRC

Personal Communicators

PRC-1X

NADY PRC-1X

- Simplex—all units share one channel
- 49 MHz transceiver
- SuperVox™ voice activated
- Single or double muff headset

The PRC-1X is a lightweight, rugged simplex bodypack communicator. One at a time can transmit, but any number on the same channel can be used together. Nady's SuperVox™ voice activation allows hands free use. Features Push-To-Talk Button on the bodypack, "Call" mode to page receiver, noise-cancelling mic, low battery LED, attached headset, and removable steel spring belt clip. Available with single or double muff headsets or standard headset.

NADY PRC-3X

- Duplex operation
- 49 MHz transceiver
- Two, way, telephone-type conversation
- Single or double muff headset

The PRC-3X is a lightweight, ruggedly built full duplex personal communicator. Full duplex means that both sender and receiver can talk at the same time—quite similar to talking on a telephone. Features include "Call" mode to page receiver when headset is not being worn, Low Battery LED Indicator, adjustable attached headset and removable steel spring belt clip. Available with single or double muff headsets or standard headset.
